01 BRAND OVERVIEW

Mission

Claude-Connector is an npm package that bridges the gap between developers and AI-powered workflows. It provides seamless integration with Claude API, enabling robust, type-safe connections for modern applications.

Brand Personality

Playful yet professional. The pixel-art crab mascot represents tenacity, multi-tasking capability, and the 'connector' nature of the tool — a crab that grabs onto everything with its USB and plug claws. The retro pixel aesthetic signals developer culture, while the clean typography conveys reliability.

Core Values

Connectivity — bridging systems and developers. Reliability — rock-solid like a crab's shell. Accessibility — friendly and approachable for all skill levels. Open Source Spirit — community-driven and transparent.

Wordmark

CLAUDE-CONNECTOR

"CLAUDE" is set in white (or navy on light bg), "CONNECTOR" in brand orange. Both words use bold weight, all caps. The hyphen acts as a visual bridge.

Mascot Anatomy
